

CLAIMS

I claim:

- 1) A catamenial related products storage apparatus comprising:
a body adapted to receive means for styling hair, the body further
5 including an essentially hollow portion, the essentially hollow portion
further defining at least one compartment;
a handle having an interior space, the handle further including a first end
and a second end, the first end having an opening and the second end
adjacent the body;
10 at least one lid disposed to reversibly seal the at least one compartment of
the body; and,
an end cap disposed to reversibly seal the first end of the handle.
15
- 2) The apparatus of Claim 1 further including a prepackaged wipe disposed
in any of the at least one compartments.
- 20 3) The apparatus of Claim 1 wherein the body further includes an exterior
surface on which ornamentation can be applied.

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

- 4) A catamenial related products storage apparatus comprising:
a body adapted to receive means for styling hair, the body further
including an essentially hollow portion, the essentially hollow portion
5 further defining at least one compartment;
a handle adjacent the body, the handle further including an interior space;
at least one lid disposed to reversibly seal the at least one compartment of
the body; and,
a handle lid disposed to reversibly seal the interior space of the handle.

10

- 5) The apparatus of Claim 4 further including a prepackaged wipe disposed
in any of the at least one compartments.

15

- 6) The apparatus of Claim 4 wherein the body further includes an exterior
surface on which ornamentation can be applied.

20

- 7) A catamenial related products storage apparatus comprising:
- a body adapted to receive means for styling hair spanning its circumference, the body including a first end and a second end, the second end having an opening, the body further having an essentially hollow portion, the essentially hollow portion further defining at least one compartment;
- a handle having an interior space, the handle further including a first end and a second end, the first end having an opening, the second end adjacent the first end of the body;
- a body end cap disposed to reversibly seal the second end of the body;
- and,
- a handle end cap disposed to reversibly seal the first end of the handle.

15

- 8) The apparatus of Claim 7 further including a prepackaged wipe disposed in any of the at least one compartments.

20

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

- 9) A catamenial related products storage apparatus comprising:
- a body adapted to receive means for styling hair spanning its entire circumference, the body further including an essentially hollow portion, the essentially hollow portion further defining at least one compartment
- 5 and having an opening at a body end member;
- a handle adjacent the body, the handle further including an interior space;
- a body end cap disposed to reversibly seal the body end member body end member of the body; and,
- a handle lid disposed to reversibly seal the interior space of the handle.

10

- 10) The apparatus of Claim 9 further including a prepackaged wipe disposed in any of the at least one compartments.

15

20

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

- 11) A catamenial related products storage apparatus comprising:
a body adapted to receive means for styling hair along its entire length, the
body further including an essentially hollow portion, the essentially
hollow portion further defining at least one compartment; and
5 at least one lid disposed to reversibly seal the at least one compartment of
the body.
- 10 12) The apparatus of Claim 11 further including a prepackaged wipe disposed
in any of the at least one compartments.
- 13) The apparatus of Claim 11 wherein the body further includes an exterior
15 surface on which ornamentation can be applied.

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

14) A catamenial related products storage apparatus comprising:
a body adapted to receive means for styling hair along its entire length, the
body further having a first end and a second end and including an interior
space, the interior space further defining at least one compartment; and,
5 at least one lid disposed to reversibly seal the at least one compartment of
the body; and,
a first end cap disposed to reversibly seal the first end of the body.

10

15) The apparatus of Claim 14 wherein a second end cap is disposed to
reversibly seal the second end of the body.

15

16) The apparatus of Claim 14 further including a prepackaged wipe disposed
in any of the at least one compartments.

20

17) The apparatus of Claim 14 wherein the lid further includes an exterior
surface on which ornamentation can be applied.

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

18) A compartmentalized hair styling apparatus comprising:
a hair brush member having a solid base, the solid base having a bottom,
the bottom a plurality of bristle members mounted therein;
an elongate handle that extends longitudinally from the base portion, the
5 handle having a first end and a second end and further including an
interior space, the handle being open at the first end;
a means for closing the first end of the handle.

10

19) The apparatus of claim 18, wherein the closing means is an end cap
disposed to reversibly seal the first end of the handle.

15

20

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

20) A compartmentalized hair styling apparatus comprising:

a comb member having a solid base, the solid base having a bottom, the
bottom including a plurality of tines mounted therein;

an elongate handle that extends longitudinally from the base portion, the

5 handle having a first end and a second end and further including an
interior space, the handle being open at the first end;

a means for closing the first end of the handle.

10 21) The apparatus of claim 20, wherein the closing means is an end cap is
disposed to reversibly seal the first end of the handle.

15

20

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

22) A compartmentalized hair styling apparatus comprising:

a hair brush member having a solid base, the solid base having a bottom,
the bottom a plurality of bristle members mounted therein;

an elongate handle that extends longitudinally from the base portion, the

5 handle further including an interior space, the interior space further having
an opening; and,

a means for reversibly sealing the opening of the interior space of the
handle.

10

23) The apparatus of claim 22, wherein the closing means is a lid disposed to
reversibly seal the opening of the interior space of the handle.

15

20

UNITES STATES PATENT APPLICATION
INVENTION: Compartmentalized Hair Styling Apparatus
INVENTOR: L. Marie Krey

24) A compartmentalized hair styling apparatus comprising:

a comb member having a solid base, the solid base having a bottom, the
bottom including a plurality of tines mounted therein;

an elongate handle that extends longitudinally from the base portion, the

5 handle further including an interior space, the interior space further having
an opening; and,

a means for reversibly sealing the opening of the interior space of the
handle.

10

25) The apparatus of claim 24, wherein the closing means is a lid disposed to
reversibly seal the opening of the interior space of the handle.

15
